

## **Resolution To Support Amazon Whistleblower Jason Stolarik and US OSHA Investigator Darrell Whitman**

Whereas, the issue of health and safety is a worker and human rights issue, and

Whereas; health and safety whistleblowers fear workplace bullying, harassment and retaliatory firings, and

Whereas, Wisconsin Amazon worker Jason Stolarik was terminated for making health and safety complaints, and

Whereas, OSHA officials have refused to investigate and defend Jason Stolarik and OSHA investigator Darrell Whitman, who was bullied and fired for defending OSHA whistleblowers,

Therefore be it resolved, that the delegates to the Binational Conference demand the immediate re-instatement of Amazon worker Jason Stolarik and US OSHA investigator Darrell Whitman, and

Be it further resolved, that we demand an end to the collusion between Amazon, and OSHA officials as well as with other companies and will work to build a national and international health and safety movement and also to defend injured workers.
