

Oppose Nomination of FedEx VP Scott Mugno

Whereas, President Trump has nominated Scott Mugno, vice president of safety, sustainability and vehicle maintenance at FedEx Ground, to be OSHA chief, and

Whereas, FedEx has killed 169 workers in the United States in the last three years due to serious violations of health and safety rules, and

Whereas, Scott Mugno has personally allowed the bullying, harassment and termination of FedEx whistleblowers Gary Brent, Guy Cobb, NS Brian Gruzalski, and

Whereas, FedEx has bullied and retaliated against Federal OSHA Whistleblower Protection Program investigator and lawyer Darrell Whitman for seeking to enforce laws for the protection of whistleblowers, and

Whereas, Scott Mugno has called for the elimination of regulations in trucking in the U.S. and has supported deregulation of trucking in Mexico, and

Whereas, working people in the U.S. and Mexico must fight together to protect health and safety for workers and the public.

Therefore be it resolved, that this conference calls for these whistleblowers to attend any hearing for Scott Mugno, and furthermore we support the rejection of Scott Mugno and the criminal investigation of Scott Mugno and Fed-Ex CEO Fred Smith for conspiracy to violate OSHA regulations and illegal harassment and intimidation of OSHA WPP workers.
